## Important Installation Instruction

**ALL INSTALLATIONS SHOULD ONLY BE PERFORMED BY TRAINED OR AUTHORIZED PERSONS**

**Warning** - To reduce the risk of injury:

1. **Carefully Read And Follow All Installation Instructions**
2. This unit should only be installed in a rough opening capable of providing proper structural support. Have a qualified service person make repairs to surrounding electrical cables and/or other surrounding structure to ensure proper anchoring of unit before installation.

**Caution**  
**Improperly Adjusted Door can cause injury and equipment damage.**  
**Inspect door operation daily**

### To Our Customers

The purpose of this manual is to familiarize you with your door system. It is essential that you "know your system" and that you recognize the importance of maintaining your door system .

### It is your responsibility,

as owner or caretaker of the equipment, to inspect the operation of your door system on a daily basis to ensure that it is safe for use by your customers or employees.

This manual will provide you with a description of the operation and maintenance requirements of your door.

Should the door fail to operate do not attempt to repair or adjust the door. Call a qualified service technician.

These technicians are trained to service your door in accordance with applicable industry safety standards.

### Service Availability

DORMA Automatics, Inc. products are distributed through a nationwide network of DORMA Automatics, Inc. authorized distributors for sales, installation and service.

## Manual Sliding Door Installation Instructions

### Instructions to Installer

We are pleased that a DORMA manual sliding door has been chosen for this installation. DORMA carefully designed, tested and built the door of high quality materials as it will provide many years of service.

Now the door must be installed and adjusted properly to ensure its proper operation and safe use.

To install and adjust the door for proper and safe operation, the installer must carefully read this instruction book before proceeding, then follow the instructions exactly.

The door is designed to be installed only by trained and knowledgeable installers. The installation technician should be experienced in the installation of automatic entrances.

After installation, the door must be adjusted to conform with DORMA recommendations and all code requirements. Be sure to carefully study the requirements in these instructions.

After installation and adjustment, the installers final responsibility is to properly instruct the owner in the safe use of the door. He must also present the owner with the ICU/CCU owner's Manual.

Each step of the installation, adjustment and instructions are important for proper and safe use of the door being installed. If there are any questions about any items contained in these instructions, call the DORMA Technical Assistance Group for assistance.

**Note:** If there are any problems, discontinue door operation immediately and secure the door in a safe manner. Call your local authorized DORMA Automatics distributor for repair.
